EXPERIENCE

FreeCast Inc

iOS | tvOS Engineer | Since January 2021

Contributed to the development of FreeCast's cross-platform streaming apps, delivering scalable and high-performance experiences for both iOS and tvOS users. Worked closely with product and backend teams to build and maintain complex features. Built and maintained advanced features using SwiftUI, UIKit, and MVVM, ensuring consistency and performance across both platforms. Integrated FairPlay DRM for secure media playback, handling license acquisition and streaming key requests via backend APIs.

PagBank PagSeguro

iOS Engineer | July 2018 - January 2021

Contributed to the development of PagSeguro's native iOS applications, focusing on building robust, secure, and scalable mobile solutions for one of Brazil's largest fintech companies. Developed and maintained features using Swift, applying MVVM-C architecture for better scalability and separation of concerns. Integrated RESTful web services and managed third-party dependencies using CocoaPods and Carthage. Implemented Unit Tests and UI Tests to ensure code quality and application reliability.

Stormbreaker Studios

iOS Developer | January 2020 - December 2020

Worked on a variety of iOS applications across different domains, focusing on delivering functional and user-friendly mobile experiences. Built new features and resolved bugs using Swift, following MVC architecture and clean code principles. Utilized both Storyboard/Interface Builder and programmatic UI (view code) to develop flexible, reusable components. Integrated In-App Purchases, Firebase, and third-party libraries through CocoaPods.

BRQ

iOS Developer | April 2017 - June 2018

Worked on the development and maintenance of native iOS applications using Swift and Objective-C, delivering features aligned with business requirements in the banking sector. Integrated RESTful web services and third-party frameworks using CocoaPods. Collaborated in an agile Scrum environment, participating in sprint planning, daily stand-ups, and retrospectives.

Magna Sistemas

iOS Developer | February 2016 - April 2017

Working with native applications using Swift, web services integration, external frameworks...

EDUCATION

Technical Degree focused on software engineering, algorithms, databases, and application development -

FMU, Sao Paulo, Brazil

Technical Degree in Systems Analysis and Development | February 2014 - June 2018

Intensive course covering Objective-C, UIKit, and Apple development tools through hands-on projects - Impacta, Sao Paulo, Brazil

iOS Development Program (4 months) | March 2013 - December 2014

SKILLS

Also proficient in stream video, web services integration, frameworks development, fastlane, grew up bilingual (Portuguese and English)

- iOS
- tvOS
- Xcode
- Swift
- SwiftUI
- UIKit
- Auto Layout
- git
- MVVM
- XCTest
- Testing
- CI/CD
- Sonar
- fastlane
- cocoapods
- SPM
- Code Review
- Scrum
- Teamwork
- AVPlayer

About me

I'm passionate about technology, science, developing things that improve people's lives and make the world a better place. I've been working with mobile development for iOS platform since 2014 with experience on all steps of iOS development, from the concept of the ideas until releasing the app on the store and following the results with analytics, tests and crash reports. Great skill with standard Apple
