

JOHN LIMA

iOS Engineer

EXPERIENCE

IOS | TVOS ENGINEER ▾ FREECAST INC

Since January 2021 , Contributed to the development of FreeCast's cross-platform streaming apps, delivering scalable and high-performance experiences for both iOS and tvOS users. Worked closely with product and backend teams to build and maintain complex features. Built and maintained advanced features using SwiftUI, UIKit, and MVM, ensuring consistency and performance across both platforms. Integrated FairPlay DRM for secure media playback, handling license acquisition and streaming key requests via backend APIs.

IOS ENGINEER ▾ PAGBANK PAGSEGURO

July 2018 - January 2021 , Contributed to the development of PagSeguro's native iOS applications, focusing on building robust, secure, and scalable mobile solutions for one of Brazil's largest fintech companies. Developed and maintained features using Swift, applying MVM-C architecture for better scalability and separation of concerns. Integrated RESTful web services and managed third-party dependencies using CocoaPods and Carthage. Implemented Unit Tests and UI Tests to ensure code quality and application reliability.

IOS DEVELOPER ▾ STORMBREAKER STUDIOS

January 2020 - December 2020 , Worked on a variety of iOS applications across different domains, focusing on delivering functional and user-friendly mobile experiences. Built new features and resolved bugs using Swift, following MVC architecture and clean code principles. Utilized both Storyboard/Interface Builder and programmatic UI (view code) to develop flexible, reusable components. Integrated In-App Purchases, Firebase, and third-party libraries through CocoaPods.

IOS DEVELOPER ▾ BRQ

April 2017 - June 2018 , Worked on the development and maintenance of native iOS applications using Swift and Objective-C, delivering features aligned with business requirements in the banking sector. Integrated RESTful web services and third-party frameworks using CocoaPods. Collaborated in an agile Scrum environment, participating in sprint planning, daily stand-ups, and retrospectives.

IOS DEVELOPER ▾ MAGNA SISTEMAS

February 2016 - April 2017 , Working with native applications using Swift, web services integration, external frameworks...

PROJECTS

BASETRACKING

, 🇮🇹 The easiest way to setup your analytics

LMLOADING

, ⌚ The best and easy way to show an loading in your view

PICKIMAGEALERT

, 📷 Photos or camera access using the system alert controller

OBSERVABLEKIT

, 👁️ ObservableKit is the easiest way to observe values in Swift

BASENETWORKKIT

, 🌐 BaseNetworkKit is the easiest way to create your network layer in Swift

MOONKIT

, 🌕 MoonKit is a short framework to get information about the moon

SWMAILGUN

, ✉ SWMailgun provides simple alternative APIs when you need to send an email with your iOS app using Mailgun

LMSTORAGE

, 🗄 LMStorage is a framework which reduces the complexity of managing a persistent layer.

EDUCATION

TECHNICAL DEGREE IN SYSTEMS ANALYSIS AND DEVELOPMENT

Technical Degree focused on software engineering, algorithms, databases, and application development - FMU, Sao Paulo, Brazil

IOS DEVELOPMENT PROGRAM (4 MONTHS)

Intensive course covering Objective-C, UIKit, and Apple development tools through hands-on projects - Impacta, Sao Paulo, Brazil

SKILLS
